A11. Did the administrative entity's legal service area boundaries change since last year? (#205)	Answer Yes or No to the following question: "Did the administrative entity's legal service area boundaries change since last year?" NOTE: Changes are likely to result, for example, when a municipality annexes land, when one municipality in a county becomes either an independent city or its own county necessitating its exclusion from the first county's geography, or when an administrative entity contracts to provide public library service for some additional geographic area other than the geographic area for which it was established (e.g., a municipal library contracts to serve county residents).

If you believe this data to be incorrect, contact State Library Data Coordinator, 605-773-3131. Definition: The number of people in the geographic area for which a public library has been established to offer services and from which (or on behalf of which) the library derives revenue, plus any areas served under contract for which the library is the primary service provider. Populations that are served without a formal contract or with little or no fiscal support are reported in A15, not here. Contact your State Library liaison for assistance with this question.	prefilled
A15. Estimated population of the total service area (the population the library ACTUALLY serves)	ESTIMATE the population of the area that you ACTUALLY serve. Examples: --A city library that serves the larger shopping area would add that population to its city population figure. --A combo library which has city authority for its public side, but serves a larger school district, would include the school district population here. In this situation, try not to guess but get the most recent numbers from the school's main administrative office. IF you issue nonresident cards, you should include this number in your count.

A20(b). Building or remodeling explanation	<i>Explain any building or remodeling done during the year or select N/A.</i>

RESOURCE SHARING / INTERLIBRARY LOAN An interlibrary loan (ILL) is when a library material or its copy is lent by one library to another upon request. This includes both lending and borrowing between libraries that are not under the same administration. G01. Registered Users (#503)	<i>A registered user is a library user who has applied for and received an identification number or card from the public library that has established conditions under which the user may borrow library materials or gain access to other library resources.</i> <i>Note: Files should have been purged within the past three (3) years.</i> <i>If the library has household registration rather than or in addition to individual registration, the library should report individuals by multiplying the number of households registered by the average number of persons in each household in the state.</i>	
G02. Library Visits (annual total attendance) (#501)	<i>This is the total number of persons entering the library for whatever purpose during the year, including persons attending activities, meetings, and those persons requiring no staff services.</i> <i>Note: If an actual count of visits is unavailable, determine an annual estimate by counting visits during a typical week in October and multiplying the count by 52. A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open).</i>

Examples of directional transactions include, "Where is the reference librarian? Where is Susan Smith? Where is the restroom? Where are the 600s? Can you help me make a photocopy?"</i>

LIBRARY PROGRAMS

[Section G, Part 2 - Library Programs tutorial](#) (Opens in a separate tab.)

Regardless of the number of formats in which a program session is offered, each program session should only be counted once and in one format category.

Synchronous (In-person) Program Sessions and Attendance

Events to Report: A reportable program is any planned event that introduces attendees to library services or activities, or provides cultural, recreational, or educational information.

Examples include: storytimes, book discussions, film showings, English as a second language classes

Do not include events sponsored by outside groups using library space, one-on-one sessions (reported elsewhere), or passive programs without attendee engagement.

Counting Program Sessions

Series Programs: Count each session individually. (e.g., a weekly storytime series over eight weeks = 8 sessions).

Formats: Report by format:

- In-person Onsite: events at the library
- In-person Offsite: events held elsewhere
- Live Virtual: live-streamed events

Count each session once, even if offered in multiple formats. Choose a single age category if the program serves multiple age groups; use the "General Interest" category only for intergenerational programs without a clear target age.

Counting Attendance

In-person Attendance: Headcount each attendee at each session. Report by the same age and venue category as the program session.

Virtual Attendance: Count unique devices connected, using the peak number of non-staff participants.

If no programs or content were recorded and posted, report "0" in the corresponding fields. Exclude programming or content from other entities that is shared via social media but is not sponsored or co-sponsored by the library. One-to-one Programs Report the number of one-to-one sessions hosted by the library, such as literacy tutoring, services for the homebound, homework assistance, mentoring activities, and test proctoring. Self-directed Activities Report if you tracked these activities. If you are unable to report figures, check the "Unavailable" box. If your library did not provide these activities, enter "0" in the appropriate fields. This refers to activities provided by library staff for patrons, typically for a limited time, that do not require direct staff interaction while the activity is being completed. Examples include take-home crafts, social media challenges or trivia, outdoor story walks, and other activities where the library provides resources, but patrons complete the activity independently.
